## SUMMARY

Full stack web developer with a background in computer science. Trained at University of Toronto coding boot camp and earned a certificate in full-stack web development. Innovative, problem-solver, passionate about developing apps, focused on responsive web application and development. Strengths in creativity, teamwork, and building projects from ideation to execution

## TECHNICAL SKILLS

### Softwares/Platforms:

- GitHub, heroku, Graphic Design with Adobe apps
- Microsoft PC, Mac OS, Microsoft Office
- IE, Firefox, Safari, and Chrome

### Software Languages:

- Html, CSS, JavaScript, Mysql, node.js, Express.js, mongodb, MVC, React,
- Knowledge of PHP, Oracle, C++, Java

## PROJECTS

**Learning-My-Way** | <https://github.com/abedhasan79/Learning-My-Way> |  
<https://abedhasan79.github.io/Learning-My-Way/>

- Learning My Way is a web application that can access any topic and pull up images, wiki info, and videos. Being able to grab all these resources on anything you can think of can be helpful in many ways.
- Worked with one of the 3 API used (wikipedia), one of the Javascript sheets, and a portion of CSS.
- HTML, CSS, JavaScript, JQuery, Bootstrap, Bulma, Google font

**Tech-Event-Planner** | <https://github.com/hmhtom/tech-event-planner> |  
<https://tech-event-planner.herokuapp.com/>

- Tech Event Planner is a platform for finding and building Tech communities. People use Tech Events to meet new people from the same field, learn new things, find support, get out of their comfort zones, and pursue their IT skills together
- Worked with models and schema and seeds in the server side plus some parts of handlebars
- Handlebars, mySql, Javascript, Node, Express.js

**Weather Dashboard** | <https://github.com/safazgolli/weather-dashboard> | <https://safazgolli.github.io/weather-dashboard/>

- Weather Dashboard is a web application that allows users to obtain current and 5 day forecast weather by city
- Worked with API of open weather to get the data necessary for the website formatting the date
- HTML, CSS, JavaScript, JQuery, Bootstrap, API

## EXPERIENCE

**Tutor**  
**Oxford Learning Center**  
Milton, On

OCTOBER 2022

Teach students in different grades English, French and Math while focusing on cognitive personal development

Key Accomplishments:

- Teach multiple students in different levels the same time remote and in person
- Keep getting more responsibilities very quickly; started with 4 students and I teach 16 students currently
- Track students progress and evaluate their skills during each lesson to make sure they are progressing and achieving the program goals
- Motivate students by encouraging them and provide positive feedback
- Raise any progress related concerns to the programer and discuss any correction to the curriculum
- Work in an environment that yields fast-paced results
- Adapt to schedule changes with short notice

## EDUCATION

**Certificate in full stack web development (bootcamp):** University of Toronto, Toronto, ON  
DECEMBER 2022

An 18 week intensive program focused on gaining skills in HTML, CSS, Javascript, Node js , Express.js, Mysql, Mongo, MVC React.js and garphQL

**General Arts and Science in English for Academic Purpose Diploma:** Humber College,  
Toronto  
JANUARY 2019 - MAY 2019

**Bachelor's Degree in Computer Science:** Higher Institute of Computer Science and  
Multimedia, Tunisia  
SEPTEMBER 2008 JUNE 2012
